Summary

I am an experienced **Front End Developer with over 6+ years** of expertise in creating responsive and scalable web applications. Proficient in React.js, JavaScript (ES6+), and HTML5, I am dedicated to enhancing UI development and optimizing performance. I take pride in mentoring junior developers and contributing to Agile teams while solving intricate front-end challenges with efficient coding practices. Currently, I am advancing my skills in **MERN Stack** to transition into a full-stack developer role

Experience

Rasi Infotech

Salem, Tamil Nadu

Front End Developer

01/2018 - 02/2025

Professional Summary

- Develop and maintain responsive web applications using React.js, JavaScript (ES6+), HTML5, and CSS3
- Lead code reviews, enforce best practices, and ensure scalable, maintainable code
- Mentor junior developers, providing training and technical support
- Troubleshoot and resolve front-end bugs and client-specific issues
- Collaborate with cross-functional teams to implement new features in an Agile environment

Education

Periyar University

Masters Of Computer Application(MCA)

08/2015 - 05/2017

Skills

Languages: HTML5, CSS3, JavaScript, ES6

Web Technologies: JSON, AJAX, DOM Manipulation, REST APIs

Frameworks & Libraries: React.js, React Hooks, Bootstrap, Reactstrap, Laravel

Backend (Learning): Node.js, Express.js, MongoDB – (3 months training in progress)

Version Control: Git, GitHub

Tools: Visual Studio Code (VS Code)

Projects

Zinger

Tech: React.js, Reactstrap, Bootstrap, CSS

- Jewelry store management system featuring POS, customer accounts, inventory control, catalog management, and business analytics

enProject

Tech: React.js, React Hooks, Reactstrap, Bootstrap, CSS

- Project management platform with task tracking, scheduling, resource planning, and team collaboration tools

Projects

KVB

Tech: React.js, Reactstrap, Bootstrap, CSS

- Jewelry auditing tool for banks, using RFID-based tracking to verify jewelry safety

Pocket Academy

Tech: HTML, CSS, Javascript, Laravel

- Education platform to streamline tutoring services for students and educators

MERN Stack Projects (During Learning)

Notes Manage App

Tech: Redux, React.js, Node.js, Express.js, MongoDB

- Personal digital notebook offering functionalities to write, update, and organize notes
- User login/signup with JWT token-based authentication
- Create, edit, delete, and search personal notes

Expense Tracker

Tech: React.js, Node.js, Express.js, MongoDB, JWT

- An Expense Tracker helps users manage, monitor, and analyze their spending for better financial planning
- Add, update, and delete daily expenses with category filter
- MongoDB stores user-specific data
- Backend APIs built using Express.js
- Frontend built with React.js and Axios for async requests
